

VHUGALA TICIUS MULAUDZI

Location: Limpopo, South Africa

Contact: +27 67 270 7936

Email: brokencafe99@gmail.com

GitHub Portfolio: <https://github.com/VhugalaTM>

PROFESSIONAL SUMMARY

BSc IT graduate with live production experience in full-stack development. Built and deployed multiple React, PHP, and ASP.NET applications from concept to working demos. Seeking a junior developer role where I can contribute immediately while learning from senior engineers. Comfortable with PHP, JavaScript, C#, Java, Python and SQL

TECHNICAL SKILLS

- **Languages:** JavaScript, PHP, C#, C++, Java, Python, SQL.
 - **Frameworks:** React.js, React Native, ASP.NET MVC, HTMX
 - **Database & Cloud:** MySQL, SQL Server, Firebase, Entity Framework.
 - **Tools & Concepts:** Git, GitHub, VS Code, Visual Studio, OOP , PWAs.
-

RELEVANT EXPERIENCE

Software Developer (API & Data Systems) | Instant Eats (Food Delivery Start-Up)

Limpopo, South Africa | Jan 2026 – Present

Working in a 3-person dev team reporting directly to the lead developer

- Built RESTful API endpoints for driver mobile module handling order assignment and live location tracking.
 - Designed SQL queries and admin dashboard that transformed driver data into operational insights used daily by management.
 - Participate in Git-based code reviews, ensuring clean, documented, and maintainable code.
-

PROJECTS

Full-stack Chat System – PHP, MySQL, JavaScript, HTMX

Normalized database schema with real-time DOM updates.

Repo: <https://github.com/VhugalaTM/chatwithme.git>

Progressive Web App (PWA) | JavaScript, Service Workers, Firebase (GCP)

Offline-capable landing page deployed on GCP with service worker caching.

Live Demo: <https://landing-page-d1f65.web.app>

ASP.NET MVC Web Application | C#, ASP.NET, SQL Server, Entity Framework

Multi-page data-driven app using MVC, Razor syntax, and server-side validation.

Java JSP/Servlets Web Application | Java, JSP, Servlets, MySQL, JDBC

Dynamic web app with session management and CRUD via JDBC.

Front-End E-Commerce Site | React, Firebase

Responsive UI with cart logic and state management.

Live Demo: <https://my-butcher-1.web.app>

CRUD Database Application | React, PHP, MySQL

Full-stack data management tool with React frontend and PHP API.

Repo: <https://github.com/VhugalaTM/crud-application.git>

EDUCATION

Bachelor of Science in Information Technology

Richfield Graduate Institute of Technology | 2023 – 2025

All exams completed. Official graduation ceremony: 23 May 2026.

PROFESSIONAL ATTRIBUTES

- Collaborative problem-solver who prefers team debugging and shared solutions.
- Eager to learn from senior developers while delivering production-ready code independently.
- Thinks about production monitoring, not just features.
- Writes clear documentation and communicates technical ideas simply.
